Love Your Elden Sword! I am an early fan of this game. I like the lore of the game and the character development. I bought it 2 days ago, so I can't make a full review. But here is what I've been thinking since I installed it: 1. Would have liked the graphics a little more polished. A lot of textures were low quality. 2. Where's the link with the Discord chatroom the devs were talking about in their recent interviews? I'd love to be able to talk with them and ask more about the game's development. 3. Large campaign map is nice, but a bit daunting. 4. Having many pre-made characters that you can use in the early game is nice, but it would be nice to have more options like what is available with the new one-use character skins. 5. The event that happens when you reach level 20. Something went wrong with the rules, when you have many attacks and the shield goes down, you can't use the curative skill. I lost a lot of levels because of that and I'd like to know what was the issue? Important to me: An issue with the repair tool that's designed to repair weapons. I was playing against a necromancer, whose wands would always get burned. I left the support window on the right-click menu open all night, but nothing happened until the next day, and even then, nothing happened. But when I restarted my computer, the wands that could have been recovered appeared again. You can see it yourself: THE NEW FANTASY ACTION RPG. Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between. REVIEWS ELDEN RING game: Annnnd this is all I have to say. I have been playing this game for just over a week now. I have been late on at least 4 D2D matches because of a certain game breaking bug that keeps happening from time to time (I have lost at least a match because of this bug as well). This bug occurs on my PC and some other players PCs as well. This game bugs are for sure not just on my PC, and this game has really bad and random graphical crashes and bugs. I am very dissapointed with the bff6bb2d33
